Call for Nominations

2009 M&SOM Best Paper Award

Each year *Manufacturing & Service Operations Management* (M&SOM) selects one paper for its Best Paper Award. This paper is deemed most deserving for its contribution to the theory and practice of operations management.

Nominations for this award will be accepted until March 16, 2009. All papers published in one of the prior three volumes of M&SOM (Volumes 8–10) are eligible. Nominations should be e-mailed to the Editor (msomeditor@mit.edu) and will be handled as confidential input to be used only for the purposes of this award. Each nomination should contain the following information:

1. Name, affiliation, and e-mail address of the nominator(s).
2. Bibliographic reference of the nominated paper.
3. Statement of support for the nomination—The nominator(s) should discuss the significance of the paper's current and future contribution to the theory and practice of operations management. There are no formatting or length restrictions on this statement.

From the set of nominated papers, the Best Paper will be selected by an ad hoc committee appointed by the Manufacturing and Service Operations Management Society, in consultation with the M&SOM Editor. The 2009 M&SOM Best Paper will be announced at the Manufacturing and Service Operations Management Society's summer 2009 conference. A subsequent announcement will be published in the journal along with the paper's abstract and a statement from the ad hoc committee highlighting the paper's contribution. The authors of the Best Paper will share a \$2000 cash award, provided by the Manufacturing and Service Operations Management Society of INFORMS.

Past recipients of the M&SOM Best Papers are:

2007 M&SOM Best Paper—Lariviere, M. A., J. A. Van Mieghem. 2004. Strategically seeking service: How competition can generate Poisson arrivals. *Manufacturing Service Oper. Management* 6(1) 23–40.

2008 M&SOM Best Paper—Gaur, V., S. Seshadri. 2005. Hedging inventory risk through market instrumentation. *Manufacturing Service Oper. Management* 7(2) 103–120.
